

Helping Volunteer Organizations Succeed

by Ed Downs

Ed Downs, CH2V Founder

For over 10 years, ClickHere2Volunteer.com has been providing a robust Content Management System at no cost to schools across Texas, the U.S. and world.

Our sites have a ton of features that make communication easy. A few years ago, point-of-sale terminals were launched, and this year Mobile Access was introduced.

Our sites are **TRULY 100% FREE**, no matter how many members you have, how many emails you send, or pages you create. We want to help Volunteer Organizations succeed in their mission to further education in America.

Our Mission: To Provide Needed Funding for Education

Funding cuts in education are increasing. Our mission is to bring funding to organizations they couldn't otherwise get. And that's the **ONLY** way we make money. It's definitely harder than charging a fee, but we believe it's the right thing to do.

We generate funding from Sponsors while at the same time providing low-cost eCommerce for online and point-of-sale fundraising at live events. Our PTAs are clearing as much as \$80,000 a year! With no monthly fees and the lowest credit card processing rate, we think the choice is clear.

The BEST Web Site Solution

While our sites are 100% FREE, they are also VERY powerful. Each one is 100% customizable. All content is built around a "Contributed Content Model", which is unique to CH2V. ANYONE you designate can submit articles, calendar events, even email blasts, which wait for review by the designated "Content Approver(s)."

Making a Difference

From the beginning, CH2V has been working to reach "Critical Mass". Today, thousands of organizations use CH2V worldwide. When you use CH2V for your web site portal, you not only have the best possible platform to meet ALL your communication and fundraising needs – you are helping us in our mission to fund PTAs around the world.
